**UTRECHT NETWORK ANNUAL GENERAL MEETING
BELFAST – 28-29 APRIL 2016
EVALUATION OF THE MEETING**

What were your expectations in participating in the UN AGM in Belfast?

Update on new initiatives, status of the work of the task forces, networking
To meet all members for the first time and learn how the network works and hopefully to contribute to its development the best I can.
Receive update on network activities, budget etc from previous year.
Networking, receive news from different fields of HE, exchange of ideas with colleagues
Networking with colleagues, discuss topics of common concern, learn more about the work in the task forces.
I expected a well organised meeting where business would be conducted in a positive and efficient manner.

Comments

We were very warmly received and all the organizational matters were easy. The meeting was organised very well. Never enough time to discuss all issues but that is to be expected. It was a very busy program and there should be a microphone for everyone who wishes to speak during the AGM, at some point I did not understand/hear some discussions. I thoroughly enjoyed the meeting. Accommodation, both in terms of location and standard, was excellent. The meeting facilities were top class. The excursion was a great success. as always it would be nice if more people participated actively in the meeting. Some universities attend with 2 people and neither one says a word throughout the entire meeting. there is little one can do about it though, but raise awareness that participation is expected.

Please feel free to suggest topics you would like your Rector will discuss or to propose any idea on the format of the Rectors' meeting

Perhaps we can find good speakers among our rectors/vice rectors on internationalization topics. They could perhaps present best practice examples of how leadership can support/incentivise internationalization of their institution. It was a good decision to concentrate the Rectors' Meeting and the AGM in two days
 Autonomy and regulation: competences and responsibilities in the (difficult) dialogue between the university and the State authorities in the process of quality assurance.
 At that stage I don't have anything to mention.
