Utrecht Network,
Alina Grzhibovska, President

Dear Alina Grzhibovska,

We are very pleased to inform you that we have published the following documents on the CALOHEE website <https://www.calohee.eu/> as outcomes of the project, in which the Utrecht Network was a Partner:

- *Guidelines and Reference Points for the Design and Delivery of Degree programmes in*
Civil Engineering
Teacher Education
History
Nursing
Physics
- *Assessment Reference Frameworks for Civil Engineering, Teacher Education, History, Nursing, Physics*
- *Subject Area Qualifications Reference Frameworks*

In addition to the fixed Qualifications Reference Frameworks (QRF) for Civil Engineering, Teacher Education, History, Nursing, and Physics, we have made available tables which allow to be adjusted. They can be tailored to individual degree programmes taking into account mission and profile. We have also uploaded empty QRFs for the first and second cycle (level 6 and 7 of the EQF for LLL), which can be used by other subject areas.

We invite you to visit the CALOHEE website and download the documents. There are two versions: one that is meant to be read online, and one that is to be printed. The latter contains empty white pages, the former does not.

Dissemination of the CALOHEE outcomes

We kindly ask you help to disseminate the CALOHEE outcomes to your membership. We attach a cover letter that you can use, as well as a press release that can be published on your website. We thank the Utrecht Network once again for its contribution to the CALOHEE project. It was a pleasure to work with you.

On behalf of the project team,

Robert Wagenaar, coördinator
