3) Name of staff member

Letter of Intent

Associated Partner to the Erasmus Mundus Joint Master Degree Application

of the European Master of Medical Technology and Healthcare Business

I, the undersigned ...Alina Grzhibovska(legal representative's name of the partner organisation) hereby declare that the organisation I represent UTRECHT NETWORK...Via Zamboni, 33 – 40126 Bologna..(legal address) decide to become an associated partner to the Erasmus Mundus Joint Master Degree application described below.

UTRECHT NETWORK is a Europe-wide network of universities cooperating in internationalization, the Utrecht Network is committed to initiatives that strengthen the international profile of its member universities and the cohesion of the group. Through active participation, institutions are encouraged to initiate joint activities leading to further internationalization of member institutions. Extensive experience gained at national and international level is shared in order to attain the highest quality in the management of European and international projects, exchanges, university services and organisation. The six main aims of the Network are defined in the Strategic Plan: Foster Internationalisation, open up to new forms of cooperation, respond actively to European HE policies, collaborate effectively within the Network, enhance the quality of internationalisation processes in member institutions, strengthen the profile and global outlook of the Network.

From a global perspective the Network is committed to building bridges between cultures through the development of mobility schemes with partners in other continents.

Considering the convergence of interest of the EMMaH consortium, which is described below, and of the organisation/institution I represent to foster a high-level integrated master study programme.

Considering the Erasmus+ Programme [call for proposals 2019 \(EAC/A03/2018\)](#) of the EU which is published in the Official Journal of the European Union N° C 384/04 on 24/10/2018 and its annual work programme 2019 for the implementation of Erasmus+.

Considering the Erasmus+ Programme Guide edited by the European Commission and particularly its Key Action n°1 for the implementation of Erasmus Mundus Joint Master Degrees (EMJMD) and the budget assigned, which aim to:

- foster quality improvements, innovation, excellence and internationalisation in higher education institutions;
- increase the quality and the attractiveness of the European Higher Education Area and supporting the EU's external action in the higher education field, by offering full degree scholarships to the best Master students worldwide;
- improve the level of competences and skills of Master graduates, and in particular the relevance of the Joint Masters for the labour market, through an increased involvement of employers.

EMMaH programme is an innovative, interdisciplinary European joint master allowing graduates to pursue a career in healthcare industry and seek opportunities for training and experience with a variety of medical technologies in the healthcare business.

The consortium considers to associate organisations into EMMaH which will contribute indirectly to the implementation of specific tasks and activities, such as knowledge and skills transfer, provision of complementary courses or backing possibilities for secondment, or support the dissemination and the sustainability of the master.

By signing this Letter of Intent we hereby declare our intention to cooperate with the EMMaH consortium and to become an associated partner to the EMJMD application. In case of positive EMJMD grant decision, the organisation I represent agrees to:

(Possible tasks are following, please delete those which are inappropriate, or complete if necessary)

1. Play a role in dissemination and communication about the EMMaH master, for the purpose of international student recruitment to help attracting excellent students for EMMaH, to act as a "local" point of contact for bachelor students, to support and to refine the selection process of EMMaH applicants.
2. Provide guest lecturers / visiting scholars to the EMMaH master. Guest lecturers contribute to teaching/training and research activities, including master thesis work. Costs for hosting guest lecturers / scholars can be supported through the EMJMD grant. Activities concerned are implemented under the direct supervision of one of the EMMaH consortium partners.

The support as an "associated partner" to the project described above is formalized by signing this Letter of intent, in one single original, issued to the EMMaH consortium.

Place Riga, date 8.02.2019

Signature of legal representative of the organization
