Dear Svend, thank you for sharing italian data. And thank you for the initiative. I also think we should discuss this at the Istanbul meeting.

Best regards
Francesco

dear silvia,

thank you for taking up the ball. maybe we should involve alina.

if acceptable, the questions would be (following the italian table i attach)

- 1) who coordinates an application under the scheme of european university alliances?
- 2a) who is member of one alliance under this scheme?
- 2b) who are the other members, and who coordinates?

Reason behind could be to establish a forum for exchange of experience gained in the application phase, and in the implementation. additionally, utrecht network should be aware of the fact that all these alliances to be established could weaken the base of the bigger network (UN).

best regards,

svend

Hi Svend,

I'm checking that I have it all clear:

1. I send to all UN members a request, mentioning the scheme for european university alliances (or not?), of the following information:
 - a. What institutions do they take part?
 - b. Who co-ordinates for them?
2. Deadline to answer is 28th feb.
3. Reason of this request: comparison of comments and other issues in a later phase (which I find a bit vague...): shall I put this in the request?
4. Way to collect this information: Mail? Form?

Correct?

Shall I involve Alina for this, before sending the above?

Is this an activity related to a TF or does it interest the whole network?

Thank you!

Silvia

dear silvia,

obviously, many utrecht network members will apply within the scheme for european university alliances. we are currently in graz preparing the arqus application. graz, vilnius, bergen are part of it as well.

may i propose to collect data among the membership which institutions a) take part in what alliances b) who co-ordinates. deadline will be feb 28. after that information it should easier to share "secrets".

it could be useful to compare comments and other issues in a later phase. francesco has the copyright on that idea.

thank you in advance

svend
